<table>
<thead>
<tr>
<th>STEP</th>
<th>DESCRIPTION</th>
</tr>
</thead>
</table>
| 1    | Visit Our Website  
**▪** Explore our DHS Cybersecurity Service [application portal](#) to learn about the DHS cybersecurity mission you could support, how we hire, the types of work our employees perform, current job opportunities, and the employee benefits we provide. |
| 2    | Select Your Career Track  
**▪** There are DHS Cybersecurity Service job opportunities for employees just starting their careers and others who have been cybersecurity experts and organizational leaders for years.  
**▪** Understanding the Career Track that best describes you is a key step to complete before you apply. This includes deciding whether you would like a job where your focus is either enhancing and applying your technical expertise or leading people, teams, and organizations.  
**▪** You can apply for a specific job, which will be associated with a specific career track, or at times, you can submit a general career track application to be considered for a range of opportunities at DHS. |
| 3    | Know Your Cybersecurity Specialization*  
**▪** DHS Cybersecurity Service employees work across many cybersecurity specializations. We call these specializations technical capabilities, and we use them to structure careers and match applicants to job opportunities.  
**▪** Understanding and selecting the capability that best describes the majority of your cybersecurity expertise and experience is an important step to complete before you apply.  
**▪** When accepting applications for a specific job, DHS will note the technical capability applicants should possess and that will be focus of assessments they complete.  
**▪** When accepting general applications for most Career Tracks, DHS will ask applicants about their primary technical capability, and your response will determine the focus of the assessments you complete to demonstrate your expertise.  
*Applicants just starting a career in cybersecurity and applying for Entry Track opportunities are not required to select a primary capability.* |
| 4    | Start Your Application  
**▪** Ensure your resume is up-to-date and click Apply next to the opportunity for you.  
**▪** If DHS is not currently accepting open applications for your Career Track, you can click “Connect with Us” to reach our recruiting team. |
# New DHS Cybersecurity Service

## Overview for Potential Applicants – January 2022

### What Is Next?

<table>
<thead>
<tr>
<th>Step</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Submit Initial Information</td>
</tr>
<tr>
<td>2</td>
<td>Assessment + Interview</td>
</tr>
<tr>
<td>3</td>
<td>Tentative Job Offer + Background Investigation</td>
</tr>
<tr>
<td>4</td>
<td>Final Job Offer + Start Date</td>
</tr>
</tbody>
</table>

1. Upload resume
2. Answer questions about your expertise / experience + job interests
3. Complete multi-phase assessment process for your Career Track
