

## LET US BE WHAT'S NEXT

Whether you're just starting your cybersecurity career or looking for a change, there's a place for you in the DHS Cybersecurity Service. DHS Cybersecurity Service employees protect the systems, networks, and information Americans rely on. Connect with us to talk about the right path for you.

### MISSION ■ Cybersecurity work with impact

- We secure federal government information systems
- We assess and counter evolving cybersecurity risks
- We respond to cybersecurity incidents
- We prevent and disrupt criminal use of cyberspace
- We strengthen the security and resilience of critical infrastructure

### WORK ■ A variety of specializations and jobs

Technical Capabilities			Cybersecurity Architecture	Cybersecurity Engineering	Cybersecurity Policy	Cybersecurity Program Management
Cybersecurity Defensive Operations – Intelligence Collection and Analysis	Cybersecurity Defensive Operations – Planning, Execution, and Analysis	Cybersecurity Research and Development	Cybersecurity Risk Management and Compliance	Cybersecurity Threat Analysis	Physical, Embedded, and Control Systems Security	Security System Operations and Maintenance
Mitigation and Response	Digital Forensics	Secure Network Operations	Data Science	Secure Software Engineering	Vulnerability Assessment	

### COMPENSATION ■ Competitive pay through your career

Entry	Developmental	Technical	Leadership	Executive
TYPICAL STARTING SALARY \$64,500 - \$81,500	TYPICAL STARTING SALARY \$91,500 - \$100,000	TYPICAL STARTING SALARY \$115,400 - \$196,000	TYPICAL STARTING SALARY \$137,800 - \$195,500	TYPICAL STARTING SALARY \$186,600 - \$216,300

Typical starting salaries reflect the range of the average starting salaries *most* employees receive in *most* of the United States in calendar year 2023. In certain geographic areas, average starting salaries will be higher because of a local cybersecurity labor market supplement.

### APPLY ■ Join the entry level career track

We have opportunities for entry level applicants with 0–2 years of work experience (not including internships).

- College student or recent graduate looking for a first job
- Interested in switching to cybersecurity from another career field
- Interested in learning cybersecurity and building technical expertise
