

**Department of Homeland Security (DHS) Cybersecurity Service employees are a diverse, dynamic team working across DHS Components to protect the Nation's information technology infrastructure.**

## **MISSION ■ Your Ingenuity. Our Nation's Cybersecurity.**

More than ever, cybersecurity is a matter of homeland security. Every day, DHS Cybersecurity Service employees are on the front line – protecting the systems, networks, and information Americans rely on.

- We secure federal government information systems
- We assess and counter evolving cybersecurity risks
- We respond to cybersecurity incidents
- We strengthen the security and resilience of critical infrastructure
- We prevent and disrupt criminal use of cyberspace

DHS Cybersecurity Service opportunities are available across DHS Components and organizations.

## **JOBS ■ One Department. Many Jobs.**

In the DHS Cybersecurity Service, you can chart a career based on your interests, while honing critical skills. Regardless of your cybersecurity experience and expertise, DHS has opportunities for you.

- Start a career in cybersecurity
- Deepen or broaden your technical expertise
- Become a leader

### **Different Specializations**

DHS Cybersecurity Service employees perform a range of different jobs, which are structured around cybersecurity specializations – called technical capabilities. Each technical capability includes a series of more specific cybersecurity skills – called underlying technical competencies. For information on technical capabilities and underlying competencies, visit the Technical Capabilities Guide at [dhscs.usajobs.gov/Resources](https://dhscs.usajobs.gov/Resources)

### Technical Capabilities

Cybersecurity Architecture	Cybersecurity Policy	Cybersecurity Threat Analysis	Secure Network Operations
Cybersecurity Defensive Operations – Intelligence Collection and Analysis	Cybersecurity Program Management	Cybersecurity Data Science	Physical, Embedded, and Control Systems Security
Cybersecurity Defensive Operations – Planning, Execution, and Analysis	Cybersecurity Research and Development	Digital Forensics	Security System Operations and Maintenance
Cybersecurity Engineering	Cybersecurity Risk Management and Compliance	Mitigation and Response	Vulnerability Assessment

### Career Tracks

DHS hires DHS Cybersecurity Service employees in five different tracks ranging from the entry through executive stage of a career. A new DHS Cybersecurity Service employee starts in a career track at a specific career level based on their experience and expertise. For information on career tracks and associated career levels, visit the Career Level Guide at [dhscs.usajobs.gov/Resources](https://dhscs.usajobs.gov/Resources).

Entry Career Track	Developmental Career Track	Technical Career Track	Leadership Career Track	Executive Career Track
TYPICAL STARTING SALARY \$61,200 – \$72,000	TYPICAL STARTING SALARY \$82,650 – \$91,350	TYPICAL STARTING SALARY \$105,450 – \$179,550	TYPICAL STARTING SALARY \$123,500 – \$186,900	TYPICAL STARTING SALARY \$175,750 – \$210,000

Typical starting salaries reflect the range of the average starting salaries *most* employees receive in *most* of the United States in calendar year 2022. In certain geographic areas, average starting salaries will be higher because of a local cybersecurity labor market supplement. This includes metro Washington, D.C. where salaries include a 10% supplement.
